SKILLS

JavaScript, React, Redux, HTML, CSS, SCSS, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku, Recharts,

PROJECTS

GrabbinGood (Ruby on Rails, React, Redux, HTML, CSS, JavaScript)   [Live Site](#)| [Github](#)

GrabbinGood is a full-stack clone of the popular stock trading and investing application Robinhood with the same functionalities.

- Incorporated IEX Cloud API by displaying real time data into user and asset charts.
- Developed multiple algorithms in order to persist Redux state through refreshes.
- Employed the use of rails associations and jbuilder to optimize and limit the amount of ajax requests to the database thus increasing the performability and optimization of the application.

Cloudy Minds (Mongoose, MongoDB, Node.js, Express.js, JavaScript, CSS, React, Redux)   [Live Site](#) | [Github](#)

Cloudy Minds is a MERN web application focused on mental health, providing a safe space for users to express their thoughts

- Operated as a flex developer, optimizing routes and schemas in order to display accurate information to the frontend.
- Created algorithms such as randomizing and limiting the amount of posts displayed to the post index page to create a user friendly experience.
- Constructed modals to incorporate more user functionality and utilized CSS in order to create movable clouds for optimal design.

Corgi Run (JavaScript, HTML, CSS, Canvas)   [Live Site](#) | [Github](#)

Corgi Run is a JavaScript Canvas game based off the popular game Temple Run

- Enabled the user to jump (using an algorithm that calculates the force of jump) and slide while detecting collision.
- Implemented canvas in order to create smooth sprite animations that is seen throughout the game.
- Designed multiple features such as a music player and a start screen to enable a relaxing setting.

EXPERIENCE

Care Management Coordinator

Integra Managed Care,   June 2019 - Aug 2020

- Coordinated with over 350 members, vendors and providers to ensure timely delivery of quality in-home services that are aligned with members' service plans.
- Used appropriate billing codes/modifiers and worked with Billing & Provider Relations as needed to ensure accurate billing for services while handling a substantial caseload greater than 95% of coordinators.
- Obtained MD Orders, prescriptions, forms and all other documentation necessary from members while working with 3 Case Managers and their corresponding members.

Administrative Intern at the Emergency Department

Jamaica Hospital Medical Center,   Jan 2019 - June 2019

- Initiated a project with the Director of Hospital Operations and the Administrator of Emergency Medicine which led to a 20% decrease in triage wait time.
- Attended Leadership meetings with Directors of multiple departments in order to implement solutions to current problems arising throughout the week.
- Took part in a team project that focused on split flow which addressed staffing problems and saved the company time and resources.

EDUCATION

App Academy - Rigorous 1000-hour software development course with <3% acceptance rate (Fall 2020)
Long Island University Post - *BS - Health Administration*   (Spring 2019) 3.9 GPA
Bronx High School of Science - *High School Diploma (2014)*
